Strong. Simple. Stable.

The stainless steel version of the Hangload can be mounted on either side of your carrier - optionally on both sides simultaneously. Available in different colors.

- Durable material and ease of use
- Ideal for carrying various bags and city-rucksacks
- Lateral tilt prevents dirt and spoke collision
- Takes the load off your back and shoulders while riding
- For all frame sizes from 24 to 30 inches
- For bags with a max. handle length of 17cm

For more information of attachment, variations and application, visit our website **www.hangload.com**.
