Strong. Simple. Stable.

The plastic version can be mounted on the right side of your carrier and is easily folded out for use.

The material is UV-resistant, easily recyclable, durable and robust. Unfortunately, this material is easily scratched on the surface. Color, stability and utilization are not affected.

- Durable material and ease of use
- Ideal for large formats and heavy loads and purchases
- Lateral tilt prevents dirt and spoke collision
- Free back and free control while riding
- For all frame sizes from 24 to 30 inches
- For bags with handle with a max. length of 17cm
